

# Employment-orientated Modular VET - Curriculum Development

International Human Capacity Development for Technical and Vocational Education and Training

Dynamics of economy and labour markets requires tools how to impart competencies in a short time and tailor made way. Employment orientated modules have the advantage to be flexible and can be combined with other components for quick and flexible responding to changing labour market requirements.

## LEARNING OUTCOMES

On completion of the Human Capacity Development (HCD) measure, participants will be able to:

- Develop- or revise employment- and labour market orientated curricula
- Implement new curricula and prepare the teaching staff
- Work as multiplier in the field of training for the methodology of modular curriculum development
- Apply a multiplier-toolbox for Modular Curriculum Development

## CONTENTS

- International methods of VET-curriculum development
- Methodology of modular VET-curriculum development
- Methods of Training Needs Assessment in theory and practice
- Didactical organisation of modular VET training processes

## HCD FORMATS

Our measures are designed and realized according to project requirements through different HCD formats. All HCD formats are building blocks that can be adapted to the respective social and working environment, needs, objectives and participant groups of the project. They ensure the sustainability of our HCD activities by combining knowledge transfer, practical learning, acquisition of key competencies, network building and transfer coaching.

## TARGET GROUPS

- Decision maker in VET curriculum development or revision
- Curriculum developer
- Multiplier / Teachers / Instructors in VET institutions

## ACCESS TO NETWORKS

- Field trips to Companies with first rated VET departments
- Round tables with representatives of VET Institutions, companies and schools
- Visit of specific fairs
- Exchange of experience with Alumni
- International UNEVOC Network
