The efficiency and success of implementation of TVET curricula depends not at least from existence of adequate teaching and learning aids. Competences to use, apply and/or develop modern media can empower self-organized result orientated learning which is essential for the performance of a modern work force.

Learning outcomes

On completion of the advanced training course participants will be able to:

- develop VET curricula based on training needs
- plan the involvement of modern media in VET curricula and learning processes
- develop teaching and learning aids by using modern information processing technology

Contents

- Modern media in learning processes
- Media Didactics
- Development and production of training materials and documents
- Methods on Multi media development
- Utilisation of internet and intranet for the distribution of teaching and learning material
- Development of e-learning sequences, e-books, e-libraries

HCD formats

Our measures are designed and realized according to project requirements through different HCD formats. All HCD formats are building blocks that can be adapted to the respective social and working environment, needs, objectives and participant groups of the project. They ensure the sustainability of our HCD activities by combining knowledge transfer, practical learning, acquisition of key competencies, network building and transfer coaching.
