and fairs

Education institutions and associations working in the field
of green jobs development

Alumni Associations of former programmes

HCD formats

Our measures are designed and realized according to
project requirements through different HCD formats. All
HCD formats are building blocks that can be adapted to
the respective social and working environment, needs,
objectives and participant groups of the project. They
ensure the sustainability of our HCD activities by combin-
ing knowledge transfer, practical learning, acquisition of
key competencies, network building and transfer coaching.
